Our “Giving Trees” will be up soon after Thanksgiving, so staff, visitors and family members are welcome to choose tags from either tree and purchase a small gift for our residents. Our annual Christmas parties are being held on December 19th for the 2nd floor residents and December 22nd for the 1st floor residents, and Santa will make an appearance to distribute a gift to each resident. In order for us (elves) to separate and organize these gifts, we ask that gifts be delivered to Activities personnel by December 16th. If possible, please wrap and tape your selected gift tags to the top of each gift. We greatly appreciate and thank you for your generosity in advance.

**Lexophilia**

Lexophilia is the love of words. The term, comes from two Greek words – lexis, a derivative of the Greek logos meaning "word," and philia, meaning "friendship" or "fondness."

Some examples:
- I used to be a banker, but then I lost interest.
- Haunted French pancakes give me the crepes.
- I tried to catch some fog, but I mist.
- Jokes about German sausage are the wurst.
- I didn't like my beard at first. Then it grew on me.
- Did you hear about the cross-eyed teacher who couldn't control her pupils?
- Broken pencils are pointless.
- I stayed up all night to see where the sun went, and then it dawned on me.
- I'm reading a book on anti-gravity. I just can't put it down.

**Presidential Election**

The United States will elect a new President on November 8, 2016. The United States Electoral College is the institution that actually elects the President every four years. Citizens do not directly elect the president; instead "electors" are appointed who usually pledge to vote for particular presidential candidates. Except for Maine and Nebraska, all states have chosen electors on a "winner-take-all" basis since the 1880s. That is, each state has all of its electors pledged to the presidential candidate who wins the most votes in that state.

**Squanto & the Pilgrims**

Before the Pilgrims arrived in the New World, contact between the Wampanoag tribe and the Europeans dated from the 16th century, when merchant vessels that traveled along the coast of New England would capture Native Americans and sell them as slaves. For example, Captain Thomas Hunt captured several Wampanoag after enticing them aboard his vessel in 1614. He later sold them in Spain as slaves. A Pawtuxet named Tisquantum (or Squanto), was bought by Spanish monks who attempted to convert him. Eventually he was set free.

Despite his prior experiences, Tisquantum boarded an English ship again to accompany an expedition to Newfoundland as an interpreter. From Newfoundland, he made his way back to his homeland in 1619, only to discover that the entire Patuxet tribe – and with them, his family – had fallen victim to an epidemic.

In 1620, religious refugees from England, the Pilgrims, arrived in present-day Plymouth. Squanto and other Wampanoag taught the non-native newly arrived Pilgrims how to cultivate varieties of corn, squash and beans (the Three Sisters); catch fish, and collect seafood.
