Lorien Bel Air is now better than ever.

We're a leader in Assisted Living, Skilled Nursing and Sub-Acute Rehabilitation, and now we're even more comfortable and resident-focused with the addition of our latest Assisted Living apartments.

Our beautiful new residences are thoughtfully designed for a feeling more like home and a higher quality of life. It's the complete Lorien vision. The living style you want with the medical care you might need, including Telemedicine technology and 24-hour registered nursing coverage.

Residents here are active. They're social and engaged. They enjoy a library, music room and tranquil, soothing garden. They love our ice cream parlor, café, beauty shop and restaurant-style dining. And so will you.

Our seamless continuum of care completes the picture, with exceptional Skilled Nursing and Sub-Acute Rehabilitation on site.

Skilled Nursing rooms are offered as both private and semi-private, so that you get the space you need. The Sub-Acute Rehab features 5,000 square feet of new space. We offer the latest therapy technology, including SciFit advanced physical therapy equipment, a complete kitchen and bathroom setting for rehabilitation therapy, private treatment rooms, and even a brand-new BMW for practice getting into and out of cars.

At Lorien Bel Air, the key word is "more." More complete. More caring. More to offer than ever before.

Health Services

Sub-Acute Rehab & Skilled Nursing

We offer care and rehabilitation that are advanced and fully individualized, focused and responsive. Our licensed nurses, therapists, social workers, and dietitians take pride in providing warm, compassionate care. Rooms are private or semi-private, each featuring a full bath.

Assisted Living

Lorien Bel Air provides a real connection to a real community. It's a supportive combination of assistance and independence, with floor plan options for the flexibility and size you need. Thanks to 24-hour nursing coverage and access to Skilled Nursing, Lorien Bel Air could be the last decision you need to make.

Adult Outpatient Rehabilitation

Customized programs for Physical, Occupational and Speech Therapy are all available at Lorien Bel Air, developed and provided by licensed staff. We feature specialized equipment, including SciFit, and a full range of care.

Physical Therapy

Our physical therapists will use treatment techniques to promote mobility, strength, balance and safety while restoring function, reducing pain and preventing disability.

Occupational Therapy

Our occupational therapists can help you regain basic self-care skills such as dressing, grooming, bathing and other personal needs during activities of daily living.

Speech Therapy

Work with our Speech Language Pathologists to strengthen and rehab your voice quality, language, cognition and communication, and also address swallowing disorders.

Tracheotomy Care

We offer short and long-term care for tracheotomy patients, with nurses and speech therapists aware of the complexities of care involved.

Respite Care

If you're providing care at home and need to arrange for a short stay, Lorien Bel Air is ready to help. Our Respite Care services provide the extra support you need. We offer Assisted Living respite stays from 14 to 60 days, and Skilled Nursing respite stays, in the capable hands of our outstanding facility, from just a few days to as long as a month.

Hospice Care

We offer end-of-life care in our comfortable, modern, fully staffed facility. As with all of the services we offer at Lorien Bel Air, our Hospice Care

is provided with compassion and experience, fully focused on the needs of each individual and each family.
