All About Snowflakes!

All snowflakes have 6 sides or points!

Snowflakes look white, but they are actually clear!

Snowflakes travel slowly. It takes about an hour for each one to reach the ground!

Snowflakes are made from tiny crystals of ice!

It is thought that no two snowflakes are the same! Each one is unique!

“I Have a Dream”

.....
“The ultimate measure of a man is not where he stands in moments of comfort and convenience, but where he stands at times of challenge and controversy.”

- Martin Luther King Jr.

January

The days are short. The sun a spark, hung thin between the dark and dark.
Fat snowy footsteps track the floor. And parkas pile up near the door.
The river is a frozen place. Held still beneath the trees' black lace.
The sky is low. The wind is gray. The radiator purrs all day.

a poem by John Updike
