## Fall Prevention Tips for Seniors

According to the CDC, "Falls are most common and costly, especially among adults 65+.

Here are some tips to avoid these falls:

1. remove tripping hazards such as throw rugs & extension cords from your pathway.
2. Install grab bars in bathrooms - both in the shower & around the toilet.
3. Keep frequently used items within reach.
4. Wear sensible shoes with nonskid & proper fit.
5. Poor vision is a major factor in falls. Get an eye exam at least once a year to keep your eyes functioning at their best!

6. Remove furniture in high traffic areas.
